Personal Profile

I am a highly motivated Junior Data Analyst in the final stages of a Digital Skills Bootcamp at Just IT Training, focusing on enhancing my skills in data analysis and visualization. My background includes significant experience as a Core Banking Solution Analyst, where I developed software solutions that streamlined processes and improved productivity. I possess strong analytical skills and am proficient in SQL, Python, Azure, Tableau, and Power BI. My recent projects showcase my ability to transform data into actionable insights. I am eager to transition into a dedicated data analyst role, where I can apply my technical expertise and contribute to data-driven decision-making. I thrive in challenging environments and am passionate about solving complex problems. My goal is to secure a role as a Data Analyst, bringing my dedication, quick learning ability, and detail-oriented approach to your team to achieve the company's mission.

Key Skills

Technical Skills: Agile development, C#, JavaScript, Python, Node, React, MS Excel, MS Access, Oracle, SQL Server, MySQL, Postgres, Tableau, Power BI, Data Analysis, Data Analysis Tools, Generate Reports, Statistics, Report Development, Data Visualization, Technical Information.

Soft Skills: Customer service skills, Organized, Attention to detail, Good interpersonal skills, Focused, Analytical skills, Ability to work independently, Presentation skills, Effective communication, Research.

Training and Education

06/24-Present

Just IT Training Ltd, London

Digital Skills Bootcamp: Data Technician

A twelve-week intensive bootcamp covering the fundamentals of Data Technician.

- Data, Big Data and Data Structures
- Data Architecture & Governance
- Data Analysis using MS Excel.
- Introduction to Data Visualisation with MS Excel Tableau and Power BI
- Module 4- Data Analytics – Power BI
- Introduction to Database- Access & SQL Assignment
- Azure Fundamentals - Module 4- Fundamentals of data analytics
- Azure Fundamentals - Module 3- Non -relational data in Azure - Access (DB)
- Azure Fundamentals - Module 2- relational data in Azure (DB)
- Azure Fundamentals - Module 1- core data concepts- Software SAAS, Cloud
- Introduction using R analytical - Data cleaning and EDA with R Studio and R programming.
- Data Analysis via Python programming- Utilising Pandas, Matplotlib & Seaborn

01/2014-12/2018

Kardan University, Afghanistan

Bachelor of Computer Science

Core Modules:

Database System Concepts, Network & Software Engineering

Languages:

Visual Basic & C#, SQL, HTML, React, C#.NET, Oracle, SQL Server, MySQL

Final Year Project:

“Emergency Hospital Management Information System Along with Security Implementation”

The project aims to streamline hospital operations, focusing on emergency care with integrated patient admission, triage, and resource management. It features robust security measures, including encryption and secure user authentication, to protect sensitive medical data. This system enhances decision-making efficiency and ensures data confidentiality and integrity. It is designed to improve patient care and response times in critical situations.

01/2012-01/2013

Level 4:

01/1999-12/2011

Kardan University, Afghanistan

Information Technology, Grade 4.4 CGPA

Ghazi High School, Afghanistan

Employment History

12/23-03/24

Linguist

Worldwide Language Resources, Loughborough

- Provided accurate interpretation services for the Ministry of Defence under Operation Lazurite.
- Interpreted for over 900 Afghan newcomers under the ARAP scheme with confidentiality and professionalism.
- Interpreted Dari to English and vice versa via face-to-face, phone, and video conference.
- Delivered interpretation services for the MOD, NHS, DWP, Wellbeing Team (Mears), and several NGOs.

03/22-03/23

Full-Stack (Software/Database) Developer

Code Your Future, Birmingham

- Acquired proficiency in front-end web development technologies, including HTML, CSS, and JavaScript, React, and utilized them to create over 10 responsive websites.
- Gained expertise in back-end technologies such as Node.js and Postgres, developing and deploying over 5 web applications.
- Successfully gained 1 year of experience working with Agile methodologies in a team environment, collaborating with 10+ team members, and presenting my work.
- Collaborated with a diverse group of trainees to develop web applications using various tools and technologies.
- Demonstrated proficient knowledge of Git and GitHub, successfully collaborating on two group projects, reducing merge conflicts by 30% and increasing the project completion rate by 20%.

04/20-10/21

Core Banking Solution Analyst

New Kabul Bank, Afghanistan

- Engineered multiple software solutions that substantially enhanced productivity and streamlined processes.
 - Designed a C# software to generate automatic reports of over 6,000 customers by my cooperation with the OBI department within a 3-day timeframe, despite the initial 6-month deadline and a manual process.
 - Created software to validate data accuracy before implementing modifications in the system, resulting in a reduction of processing time from 7-10 minutes to 3 minutes, and replacing the previous manual process.
 - Developed a software solution that streamlines the End-of-Day process, reducing the time required to complete pending transactions by 1 hour.
- Implemented a streamlined archiving system completed within 5 minutes, resulting in a significant reduction from weeks to minutes and boosting department performance by 25%.
- Efficiently addressed numerous phone inquiries, resolved branch-related concerns and transaction issues, and responded to email communications.
- Performed multiple measurable CBS operational activities, including the creation and modification of 3 branches, as well as the creation and modification of over 1200 users.
- Proficient in troubleshooting across multiple departments, successfully resolving over 1500 branch queries/issues at a 93% success rate.

Interests, Hobbies and Achievements

Hobbies: Self-Development, Gym, Reading, spend time with family, discover new thing
